## WHAT IS IT?

An eye-opening 50-minute interactive presentation that dispels the myths about teens and driving. It helps parents understand their crucial role in keeping their teens safe when they drive or ride as passengers.

Using videos and audience polling tools, this event engages parents and provides them with the resources necessary to coach, monitor and support their learning drivers.

Every attendee receives a free toolkit to take home, courtesy of CAA South Central Ontario and Teens Learn to Drive.
